

NOTE: To print the Homestead Exemption Form, first remove the header and footer text from the page setup menu. From the toolbar on the left side of the Internet Explorer browser, select File => Page Setup => Remove text inside of Header and Footer => OK.

Deleting the Header and Footer will only have to be done once.

Then on the toolbar, select File => Print. Select the correct printer and make sure the printer is set up for 8 1/2 x 11 Portrait, then select OK.
