

**Parcel Identify:** This allows the map to be linked to the account detail page. Once the parcel has been located using tools in the 'Tool Selection Box', select 'Parcel Identify' to select the parcel from the Display area.

On the right of the screen, a window will pop up. This is the Account Detail Page. This window lists the Account Number, Location, Owner, Improvement and Land Values and Homestead Capped Value.

the

By selecting **More Details** at the bottom of the pop-up window, another window will appear showing all the appraisal information for that account.
