

Find Property By Street Address

Search By: [Owner Name](#) [Account Number](#) [Street Address](#) [Business Name](#) [Map](#)

Address Number: 704 Direction: [v] Street Name (required): VIA ALTOS

Building: [] Suite: []

City: [ALL] [Search]

Address Number Range Search

From: [] To: []

Hints:

- Do not enter the street type such as Street, Drive or Lane.
- To find a single address, fill in one Address Number field. To find a range of addresses, fill in both.
- If no results are found, try entering less information.
- Use % as a wildcard. For example, %oak in the street name to find all streets with "oak" somewhere in the name. <
- If searching for a one letter street name, such as X,Y or Z street, you must add the wildcard after the letter. For Example, X%.

How to search by [Street Address: \(Address Range\)](#)

- Click on [Street Address](#).
- For **direction**, click on the pull down arrow and select the appropriate street direction from the list.
- Click in the box for **Street Name** and enter only the street name (**required**). Do not enter street type, like Lane, Circle, Drive, Road, etc.
- For **City** determine whether you want to limit the search to a particular city or search all cities. For a particular city, click on the pull down arrow and select the city name from the list of cities.
- Click in the **From** box and type in the starting address number.
- Click in the **To** box and type in the ending address number.
- Click the **Search** button.
