

How to remove a property tax agent

Typically, a property tax agent will send you a form granting them authority to represent you. The agent will then file that authorization form with the Appraisal District. Keep in mind that if you do not put an expiration date on the Agent Authorization form, the agent will maintain authority indefinitely until you no longer own the property or we are notified in writing by you or the designated agent to have the authority revoked.

To remove an agent you can fill out the form using this link [Revocation of Appointment of Agent for Property Taxes](#) and mail it to our office or email it to aoa@dcad.org. This form located on our website in the Forms - Other Forms section <http://www.dallascad.org/forms.aspx#Other>.
